

Robin Lee-Cronin

Staff member since 2007

Experience: My mom loved the outdoors and my grandfather was a scout leader and an outdoorsman. My family went camping often and my mom would identify native plants and bird species, and I learned to love the outdoors. I have been a successful hairstylist at a local salon for 20 years now. While working at the salon I earned my certificate in Master Gardening because I wanted to learn more about the science of plants. I have had an organic garden for years, and I'm learning now about organic lawn care. My love of the outdoors lead me to my second career at Rutgers.

Education: I earned my Master Gardner and Horticulturist Certificate from the University of Guelph. I'm working towards completing the 160 plant information course here at Rutgers Nursery

Favorite thing about working at Rutgers: I am proud to work for a company that stands for customer service and integrity. I love working with the plants, helping customers and all my new friends here at Rutgers!

My Hobbies: Painting and doing my artwork; Sewing, organic gardening, birdwatching. Studying plants and learning more about them.

My Goal: Continue learning new things, stay young and work into my seventies and still enjoy the plants and the customers! I look forward to my very successful second career at Rutgers Nursery.
