

Patrick Dugan

Staff Member Since 2011

Education: Graduated with a Bachelor of Science in Ornamental Horticulture from Delaware Valley College with specialization in Landscape Contracting and Management.

Experience: I have been interested in plants and enjoyed being outside since I was young. When I was a teen I began to build retaining walls and plant annuals, perennials, and shrubs around my parents' home. While at Del Val I worked at the Henry Schmieder Arboretum where I designed, planted, and maintained gardens with many annuals, perennials, shrubs, and trees. For three years I worked on the Del Val display at the Philadelphia International Flower Show and was a spokesperson for the college at the display.

Favorite thing about working at Rutgers: Working with great knowledgeable staff and educating the customers.

My Hobbies: Landscaping, watching football, traveling, swimming, and being with friends.

Goals: To expand my knowledge of plants.
